Lion Stretches Himself Upon the Threshol An Englishman who lived many years in Africa says that it is now several years since he ventured to take one of the most daring shots that ever was hazarded. His wife was sitting in the house near the open door, the children were playing about her, and he was without not far away, busy with a wagon.

"Suddenly," he says, "though it was upon the very threshold of the door.

BACKACHE.

From the Press, New York City.

From the Press, New York City.

Few people have suffered more from pain in the back than Mrs. Lillie B. Newell of No. 2313 Second Avenue, New York City.

For several years she was so afflicted with this distressing malady that she was hardly able to get around, and could do little to care for her children which made her suffering all the harder to bear. Her husband, Charles Newell, who is a well-known New York optician, tried in every way to find a remedy for his wife, but no medicine seemed to have the power to remove her pain.

Mrs. Glynn, a sister of Mrs. Newell, is a rofessional nurse, and was familiar with sesymptoms of her sister's sickness. Mrs. Newell was away on a visit when a reporter called upon her, but Mrs. Glynn, who lives at No. 416 East One hundred and-twentieth Street, told the story of her sister's re-

A doctor was called when Mrs. Newell's lieved the woman's pain as no other medi-cine has done. "After awhile," Mrs. Glynn told the reporter, "we learned that the medi-cine the physician was giving my sister was nothing more than Dr. Wilhams' Pink Pills nothing more than Dr. Williams' Pink Pills for Paie People. Knowing by experience how excellent a remedy these pills were, Mrs. Newell bought some at a drug store and continued taking them. The effect was most gratifying, for in six months my sister was perfectly well and the pain in her back was nothing more than an unpleasant memory. Both she and I have recommended the Pink Pills to other people, who have not failed to find them all that is claimed. All doctors my sister had been treated by before taking the pills, and done her no apparent good."

Two or three words were given, when it came to Taylor, a man about 25. He farmed in summer and attended the academy in winter. Taylor gave the word "mardemwazzle." The head of the class began, mademwazzi, next mademwazel, and so on. Taylor was in high glee. It is now Mr. Cleveland's turn. "Boys," said he, "I have taught in this school 25 years, never have I been obliged to confess ignorance before my scholars. I have never met with the word before. Taylor, are you sure you found it in your dictionary? Bring it to me." Taylor quickly turned over the leaves and ointed gleefully to the word. The
